# STUDENT LIFE:

*Wrapping up the  
school year  
by dixie phillips*

As the 2022-23 school year comes to an end, students are excited for the upcoming summer break. For freshman, their very first high school summer. For sophomores, their first summer with a drivers license. For juniors, the summer to spend in anticipation of their final year of high school. And finally, for seniors, the summer after graduation- a time of change and excitement.

While this year finishes up, you can find your classmates studying together last minute, enjoying end of year activities, and saying their goodbyes.

To the seniors moving on to new journeys, congratulations! You've left an indelible mark on our school, and we wish you the very best in all your future endeavors.

So, as we all finish final exams and EOCs strong, it is time to remind one another of the great opportunities that we have been granted, and the potential we all hold. See you next year!

# Teacher Times: Hayley Starling

---

By: Kiley Malone

You will begin high school mathematics with the outstanding Mrs. Hayley Starling here at JMPHS. She will be the subject of this quarter's edition in order to shed light on the teacher's enigmatic personal life. Although Mrs. Starling has always enjoyed math, she initially had no intention of becoming a teacher. She started out as a teacher in order to have the same schedule as her kids and be more involved in their lives. When Mrs. Starling filled in for Lee and initially demonstrated that teaching was an option for her, she realized how much she liked it and how well she understood what she was doing. She then started to research the requirements for becoming a teacher. Math has always been a strong suit for Mrs. Starling. Once her teachers noticed her brilliance, she was determined to take the honors route. She has always like math since it is constant. Nothing is up for interpretation, and things stay the same. As a result of her ability to reflect on her mistakes from the previous year, Mrs. Starling is now entirely confident in the subject matter she is teaching. She likes to watch movies, solve puzzles, and play board games in her free time. Mrs. Starling doesn't have a particular favorite movie of all time, but she tends to like comedies or movies for young adults. However, she prefers 10 Things I Hate About You as a comfort film. Mrs. Starling is a morning person because she is more driven and effective in the morning. She enjoys visiting exciting locations with her family, such as trampoline parks or family-friendly museums. You will discover that it will be very difficult not to love Mrs. Starling throughout your time at our school. She is friendly and has a genuine love for all of her students. She shows her love for her family by treating others with respect. You could not find a teacher more caring for her students than our very own Hayley Starling.
